### Savings Bank Department

At Every Branch, where courteous personal attention is given to every depositor. If your home is not within easy distance of our nearest Branch, Bank with us by Mail—it will save you time and trouble, and give you full satisfaction. If you have much private business, open a Checking Account, and make all your payments by cheque. It is a safeguard as well as a great convenience. For you business we can give you a particularly good service, on account of the large number of our Branches throughout the West. Let us handle your collections.

THE UNION BANK OF CANADA issues its own Letters of Credit and Travellers' Cheques, which are payable at all important cities and towns the world over.

# Remember

- Although a man may spend millions in advertising, he is poorly advertised if he cannot be found in the Directory.
- A large portion of good advertising reaches those who are not ready to buy, and when they are ready, they must consult the Directory.
- If you advertise at all, put your advertisement in the Directory and get the full benefit of all the other advertising you are paying for.
- But above all, have your advertisement in the Directory in order that you may be easily found by those who look—at the time they intend to buy.
- The CLASSIFIED LISTS in the Directory are the greatest Buyers' Guide in the World.

## Introductory

We present herewith the Eighth Annual Edition of Henderson's Calgary City Directory. We do not believe that the work could be made more complete, and we have faithfully endeavored to show within these pages the constant growth of the City in population and in commercial and industrial development.

Special attention is directed to the Miscellaneous Section in the front part of the volume. This has been compiled from various records and statistics issued in the city and province, and the thanks of the Publishers

are accorded to all assisting in this work.

The Classified Section in the back part of the volume, like the Miscellaneous, is so arranged as to be of the greatest value for ready reference. The information in both sections is comprehensive and pertains to everything regarding the City of Calgary.

The Advertising Section presents the names of firms and individuals who are making Calgary the great city that it is, and who are a power in

the industrial and commercial world of Western Canada.

#### Population, September, 1913-80,851

The greatest interest, naturally, is always aroused regarding the population, and its increase from year to year. Henderson Directories bases its estimate on the number of names in the Calgary Directory, using the multiple 2 25. This must be considered as an estimate only. It is not a census.

#### TABLE OF NAMES, SHOWING INCREASE

Individual Names Firm Names Total Population	
June, 1909 9,826 920 10,746 29,26	5
July, 1910 12,852 1,057 13,909 40,00	0
Nov. 1, 1911 21,603 1,717 23,320 54,68	7
Nov. 1, 1912 32,782 2,272 35,054 73,75	9
Sept. 1, 1913 35,934 2,447 38,381 80,85	1

#### Regarding Names of Wives and Children

Henderson Directories do not contain wives' names unless the wife has an independent business or profession or is in some employment outside of her home. The husband's name is considered sufficient for directory purposes for both, and the publication of the wife's name in addition, besides being altogether unnecessary and ridiculous, would be strongly resented by both. Should the time ever arrive when women are granted equal suffrage with men in Alberta we may alter our system, but for the present we do not intend to pad our books with names that are not necessary or desired.

We do not enumerate children's names. The names of young men and young women who are employed or who have reached the age of

eighteen are taken.

Some Directory Publishers in order to increase the size of the book and to make a great showing of names take all members of the family, from the infants up. Of course such information in a City Directory is of no value and only serves to make the publishers appear foolish in the eyes of the public.

The Publishers desire to thank their patrons and the general public for the unfailing courtesy given their representatives, and also to say that they appreciate most thoroughly the confidence and satisfaction which the business men of Calgary have always shown in them and their work.

# City of Calgary

(By W Saunders, Publicity Manager, Calgary City Directory.)

**LOCATION.**—Situate in what must eventually become the manufacturing belt of the West, and lying contiguous to the great undeveloped coal areas of the Province, the City of Calgary looms prominently on the railway map as lying at the confluence of the Bow and Elbow Rivers. Being 860 miles west of Winnipeg and 640 east of Vancouver. it is practically the commercial metropolis of the Province. Most of the leading Eastern manufacturers and wholesale houses are represented here by over 1,000 commercial travelers.

**INCORPORATION.**—Incorporated in 1884 as a town, it received its city charter ten years later, when its population amounted to about 6,000. Since then Calgary has grown to be a metropolitan city containing over 83,000, a remarkable growth.

Calgary appears to be the geographical railway centre of Alberta. The C.P.R. employs about 6,000 hands in the Calgary district. The Edmonton branch and the Macleod branch of the C. P. R. run north and south respectively. In addition, the G. T. P., the C. N. R. and the Great Northern are all heading towards Calgary, the first two companies of which are expected to be running their trains into the city this fall.

Bird's Eye View of Calgary.

Calgary is the western headquarters of the C. P. R.; controlled by a general superintendent and with a large staff of officials and clerks.

**INDUSTRIAL.**—Calgary is the seat of the milling industry of the Great West, but it also holds plants manufacturing Portland cement, soap, lumber, beer, oils and paints, iron foundries, packing and abattoir plants, brick plants, and many others. The largest employer of labor in the city, et present, is the Canadian Pacific Railway; next to that, probably, the building trade seems to be the most important, finding work, as it does, for about 5.000 hands. The industries

in Calgary are heavily staffed and an increasing number among the employees proves that the business growth of the city is expanding. When completed and in full operation, the new C. P. R. shops at Ogden are expected to be manned by some 3,000 folk.

C.P.R. Shops at Ogden.

NATURAL GAS.—The discovery of natural gas within the city and adjacent to it has given an impetus to the encouragement of numerous industries, and that valuable asset now supplies power to manufacturers and also lights portions of Bast Calgary. Too much importance cannot be accredited to this discovery.

All the new business blocks of Calgary are of substantial construction, built generally of stone, brick and reinforced concrete, many having steel super-structure. Material for the erection of all buildings can be supplied on the spot.

**FRANCHISES.**—Calgary is municipally owned, controlled and operated. The street railway system, at the present time, consists of about 50 miles of trackage, and the number of passengers carried for this year is estimated to be over 17,000.000. The electric light and power department is controlled by the commissioners. The waterworks system, which at the present time consists of some 150 miles, is being largely increased.

**CLIMATE.**—The climate of Southern Alberta is ideal, and on account of its altitude—some 3,400 feet above sea level—Calgary has long been favorably noted for its beneficient attributes.

**EDUCATIONAL**.—Calgary's educational advantages are of import, its modern equipped school buildings furnishing every requirement to make them perfect. The public school buildings in the city are exceptionally attractive. There are also a number of private schools, including Western Canada Mount Royal College

Calgary High School.

(Methodist), St. Hilda's Girls' College, Bishop Pinkham College, the Sacred Heart (R. C.) Convent, and several business colleges.

A site for a university has been generously donated by a well-known citizen, and arrangements for its completion are left in the hands of an able board.

PARKS.—The city is well provided with parks, comprising some 450 acres. Five of these are located in the centre of the city, and give every opportunity to the young and old to enjoy themselves as they wish. Band and orchestral concerts are given at times in one or other of these parks. The city has also arranged for a park in the suburbs, which will be at once provided with street car accommodation.

**LIVE STOCK.**—Calgary is the head quarters for all the live stock associations in Alberta. The annual Horse Show, held in connection with the Cattle Breeders' and Horse Breeders' Associations, has for the past two years made an enviable reputation for itself. At this annual show exhibits of pure-bred cattle, fat and blood stock are most marked.

FARMING.—Of great importance to the neighborhood is the fact that the Provincial Government of Alberta has established throughout the Province Creameries and Cold Storage Plants, and situate within touch of Calgary. This means that Calgary acts as a distributing centre for those products. Further significance is lent by the C. P. R., whose irrigation policy is in no small way revolutionizing the farming and ranching industry throughout Southern Alberta. Up to date they have expended at least over \$15,000,000 and are now spending at least an additional \$15,000,000 to complete their irrigation system from Bassano to Medicine Hat, a distance of about 75 miles.

#### Progression

THE CITY OF POSSIBILITIES.—In 1881 Calgary consisted but of the Hudson Bay Company's store, another occupied by J. G. Baker, the Mounted Police Barracks and the house of the commander. Three years later mention is made in the Henderson Directory for the North West Territories of Calgary's population being at that time about 500. "Mails twice a week," "Stage weekly to Edmonton and Fort McLeod," are interesting events reflected in that compilation.

**POPULATION.**—The year 1906 saw the first City Directory for Calgary, which was issued by Henderson Directories. An estimate of the population then is stated as 20,000. As showing the carefulness of the publishers in arriving at that estimate, the police census in the following year returned the population at 21,000.

In 1909 the Police Census returned the city as holding 29,265, but the Henderson Directory for 1910 estimated the population, then, at over 40,000. Two years afterward it had increased to nearly 74,000. This year's returns show a further increase in the people of about 14 per cent. for the year.

SITES.—Industrial sites offered at cost price to the city. Assessment fixed at not over \$3,000 per acre until Jan. 1st, 1918. Buildings and stock exempt from taxation until the same date.

Calgary has a circumference of 40 miles.

INVESTMENTS.—First mortgages furnish an interest rate of from five to eight per cent, according to amount of loan.

Building material of all kinds can be found in abundant quantities within the city limits and adjacent.

Twenty-six fraternal societies have branch lodges in Calgary.

**EXHIBITION, ETC.**—The Calgary Industrial Exhibition, held in the first week of July each year, is favored with the patronage of 100,000 visitors. Calgary's City Hall cost \$320,000.

Week-end excursions to Banff, "The Playground of Canada," are one of Calgary's pleasure attractions and outings.

Calgary is now the largest city between Winnipeg and the Coast.

Immigrants are arriving in Calgary by the hundreds daily. All do not remain in the city, of course, but most of them settle in the surrounding districts, and thus add their quota towards sustaining Calgary in its commercial supremacy.

Calgary offers most liberal propositions to industrial plants.

More full and complete information regarding Calgary will be forwarded on application to the Publicity Commissioner, Calgary.

BANK CLEARINGS.—The following is a return of bank clearings for Calgary during the past three years:

1910		\$150,677,031
.1911		218,681,921
1912		<b>276,491,303</b>
1913 (for	eight months)	317,595,504

STREET RAILWAY SYSTEM MUNICIPALLY OWNED AND OPERATED.—Calgary can well point with pride to its Street Railway System. Installed in July, 1910, with only 16¼ miles of tracks and four cars, it has been a revenue producer from the commencement. More cars were added as rapidly as possible, and during the first six months of its existence the system showed a net profit of \$10,001.37. It is now an exceedingly valuable adjunct to the city, which receives large dividends on the outlay expended. The system is managed by the mayor, commissioners and a superintendent.

**LIGHT AND POWER DEPARTMENT.**—Municipally owned, controlled and operated. Installed at a cost of approximately \$1,000,000.

The city plant is capable of supplying 2,000 h.p. 24 hours daily, service generated by steam. An auxiliary 2,000 h.p. daily service is received from the Calgary Power Company, which has a water power plant forty miles west on the Bow River. The city reserves all rights to distribute light and power throughout the city, and the rates are very low, being as follows:

Light-75c per month for the first light, 60c each additional. Meter basic, 11c per K.W.

Power-6c per K.W., with discounts for prompt payments.

It will only be a short time when all municipal wires will be laid underground in conduits. Several miles have already been laid, and the work of extending the conduit system is being rushed as rapidly as possible.

The light and power department has netted the city a profit since its inauguration.

**WATERWORKS.**—Calgary has gravity system of waterworks. Pure, fresh water comes from numerous streams in the adjacent Rocky Mountains, a few miles west. Piped twelve miles from Elbow River to the reservoir, which has a capacity of 20,000,000 gallons.

Water rates in Calgary are lower than 80 per cent, of the cities in the United States, and lower than a great majority of towns and cities in Canada.

An auxiliary plant is kept in constant readiness in case of accident or serious conflagration to relieve or assist the gravity system. Three pumps, with 5,000,000 gallons capacity, are located at this plant on the Bow River.

The water main pressure is at all times maintained at an average of 70 pounds, but for fire purposes it can immediately be raised to from 90 to 105 pounds.

## Children's Aid Society

Office ...... City Hall Shelter .. Twelfth Av. and Sixth St. E.

The Children's Aid Society is a legally onstituted organization for caring for and protecting the unfortunate children of the community, in accordance with the principles and spirit of the Children's Protection Act of Alberta, passed in the year 1009 in the year 1909.

It aims to educate parents to love and appreciate their children; to find homes for the homeless; and to befriend and uplift young people who have fallen into evil ways. In a word, the Society aims to give every child its rightful chance of becoming a useful citizen, and thus becomes a protector to society from its great enemies—ignorance, vice and crime.

## The Reason

Why the CITY DIRECTORY is in the front rank as an advertising medium is because it has builded for the respectable and responsible buyer as well as for the respectable and responsible seller and has brought them together in the right way by making the right kind of people acquainted with each other.

# Remember

- Although a man may spend millions in advertising, he is poorly advertised if he cannot be found in the Directory.
- A large portion of good advertising reaches those who are not ready to buy, and when they are ready, they must consult the Directory.
- If you advertise at all, put your advertisement in the Directory and get the full benefit of all the other advertising you are paying for.
- But above all, have your advertisement in the Directory in order that you may be easily found by those who look—at the time they intend to buy.
- The CLASSIFIED LISTS in the Directory are the greatest Buyers' Guide in the World.

The Industrial Bureau of Calgary is an official organization of business men who have no self-interest to serve, but who give their time and money for the advancement of their city. The Bureau was formed and is maintained for the purpose of aiding the industrial development of Calgary. Through its efforts and assistance, many manufacturing institutions have come to Calgary and are succeeding here. The Bureau maintains an office at Calgary under the direction of its Commissioner at 231 8th Av W., and the services of this office are open to inform, aid and assist prospective Calgary manufacturing or business houses in every legitimate way.

An Industrial Expansion Committee considers all propositons of manufacturing and recommends such action as may appear desirable.

The Publicity and Advertising Committee plans and has carried out the campaign for attracting attention to the inducements, facilities and advantages offered by Calgary to manufacturers and

An Entertainment and Convention Committee provides for the entertain-ment of distingushed visitors and dele-gates and extends to national and inter-national conventions invitations to hold their gatherings in this city.

The Transportation Committee is prepared at all times to take up with the railway companies, for members of the Bureau or manufacturers, such ques-tions as freight rates and classification of goods.

Chairmen of the above committees, with the president and vice-presidents, constitute an executive committee which finally passes upon all the work of the Bureau.

## Postal Information

#### RATES OF POSTAGE

#### FIRST-CLASS MATTER.

LETTERS

Letters posted in Calgary, addressed for delivery in Calgary or within the district covered by Letter Carrier Delivery, 1 cent per ounce or fraction thereof.

Letters addressed to places in Canada, Mexico and United States, including Guam, Edward, Forto Rico and Tutulla, 2 cents per ounce or fraction thereof.

Letters addressed to places in Canada must be at least partially prepaid, and those addressed to Mexico and the United States must be prepaid at least a full rate (2c.). Otherwise they will be sent to the Dead Letter Office.

Letters addressed to places in Canada and partly prepaid will be forwarded, subject on delivery to double the amount of unpaid postage.

Letters for the United States should bear the name of the State as well as that of the Post Office.

Office

the name of the State as well as that of the Post Office.

Letters addressed to mere initials, or fictitious names, will not be delivered unless addressed in care of a resident or to some box in the Post Office.

Letters addressed simply to a street number or to a room number in a specified building without the name of a person, firm, etc., may be delivered, provided there is only one household or firm in occupation of the premises indicated; otherwise letters so addressed will be sent to the Dead Letter Office as insufficiently addressed.

Every letter for the city should bear name, street and number, no matter how well known the name may be; otherwise it is an incomplete address, and delivery may be delayed.

delayed.
The abbreviations St. and Alta are often so scribbled as to be indistinguishable. The word City, or Calgary, should always complete city address.

#### RE-DIRECTED LETTERS.

RE-DIRECTED LETTERS.

Re-directed letters are not liable to any additional postage if handed back to the Post Office with a changed address at the moment of delivery or as soon as possible thereafter, provided always the change in the address does not require the letter to be sent to any place to which the postage rate is higher than was at first payable. In this case the additional postage, if not prepayed, will be collected on delivery.

Re-directed letters should not be dropped into a Post Office Box or Receiver unless additional postage has been put on to carry them to their second destination.

#### REQUEST LETTERS

REQUEST LETTERS

Letters from places in Canada, Newfoundland, Mexico and the United States, covered by envelopes, bearing a request, either printed or written, that the letters be returned to the sender if not delivered within a certain specified time, will be returned as requested if not delivered in the time stated. Requests, whether printed or written, on packages of Third or Fourth-class matter, and on transient newspapers for return in case of non-delivery, will be complied with; but a charge will be made for such direct return equal to the original postage charge.

#### SPECIAL DELIVERY LETTERS

SPECIAL DELIVERY LETTERS

Letters are sent to their City Addresses between 7 a.m. and 11 p.m. dally, except Sunday, bearing, in addition to the usual prepayment of 2 cents an ounce, a "special delivery" Canadian stamp, addressed to the following cities in Canada: Berlin, Brandon, Brantford, Brockville, Calgary, Charlottetown (P.E.I.), Chatham, Ft. William, Edmonton, Fredericton, Galt, Guelph, Halifax, Hamilton, Hull (Que.), Kingston, Lethbridge (Alta.), London, Monoton (N.B.), Montreal, Moose Jaw (Sask.), New Westminster (B. American Special Delivery Stamps may be obtained at the Stamp Counter.

#### EXPRESS LETTERS AND PARCELS

There is immediate delivery of "Express" letters and parcels, so marked, addressed to United Kingdom. Fee payable there on letters is 6c, a mile from addressee's post office. Fee payable on parcels, 10c., can be prepaid

#### POST CARDS

POST CARDS

For Canada, Mexico and the United States, 1 cent each. For Great Britain, Newfoundland and all Postal Union countries, 2 cents each. Reply cards for Canada and the United States, 2 cents each. Nothing must be attached to a Post Card.

Private Post Cards, duly prepaid 1 cent each by postage stamp, may be posted in Canada for delivery within Canada. Mexico, and the United States.

Private Post Cards may have a reply card attached bearing 1 cent stamp.

Post Cards (official or private) may be posted in Canada addressed for delivery in any Postal Union country, postage 2c. each. Such cards are admissable as "printed matter," provided they conform to the regulations governing same, in which case the postage rate is 1c. each.

The limit of size for a Private Post Card (Domestic) is 6 in long by 3% in wide.

The British Post Office will recognize as entitled to return to this country the reply halves of Canadian Domestic Reply Post Cards upon which the additional 1 cent postage stamps required have been affixed.

For fear of the reply side of a double post card becoming uppermost, enclose it in a small india-rubber ring.

Legal Documents and Commercial Papers

#### Legal Documents and Commercial Papers

Legal Documents and Commercial Papers, and all other matter either wholly or partly in writing (except the matter specially mentioned under Third-class), are liable to letter rate of postage, 2 cents per ounce, when posted for delivery in Canada.

These papers may be sent to Great Britain, Newfoundland. United States, and all Foreign countries at 5 cents for the first 10 ounces, and 1 cent for each additional 2 ounces. Must be sent in covers open at the ends, so as to be easy of examination.

#### SECOND-CLASS MATTER.

#### GENERAL POSTAL INFORMATION

GENERAL POSTAL INFORMATION

A large number of letters reach the Post
Office every day which are undeliverable,
by reason of the absence of street and
number from the address, while serious
delays and vexatious errors occur all the
time from the same cause. Whether in
business or residential districts, "street and
number" form an indispensable part of the
address of letters. If business men, however well known, have their street and
number printed on their stationery, their
correspondents avail themselves of the information, and the Post Office and public
are both benefited. Delay to the extent
of at least one delivery must occur when
reference to the City Directory is necessitated.

CITY LETTERS.—Where an addressee's name is in the City Directory, the writer has the same means of completing the address as the post office has, and delay in delivery is avoided.

In delivery is avoided.

A street runs sometimes for miles under the same name, and a dozen or more carriers serve its several parts. Where the house number is omitted from the address in such streets, the letter will be returned to writer for amended address, instead of, as heretofore, being tried on every carrier serving that street, and prompter delivery will result. If referred to our Directory Clerks, the wrong person must often be "tried" and time is lost in the same way. Thinking to save trouble in their own offices, persons malling circulars, catalogues, etc., in large numbers often address them omitting street and number; thus entailing

certain delay in sorting and equally uncertain delivery. Banks and companies posting notices and dividend cheques are constant offenders in this way. In the interest of the senders these will be returned in bulk for better address.

these will be returned in bulk for better address.

Persons living in the neighborhood of the Post Office sometimes complain that they receive letters no earlier than those who live in the suburbs. It would seem almost innecessary to state that every carrier begins his walk practically at the same time. The position of a house in the carrier's walk governs the time at which letters are received there. These walks are meant to be covered in one hour, or two, according to district and the number of deliveries made in the day. The hour of the first delivery accords with the arrival of morning trains from the East; and a majority of people object to receiving letters before 8 a.m.

Merchants or others having much main matter to post at or about 6 p.m., when their offices close, are advised to insist on their messengers carrying the matter to the General Post Office, thus avoiding occasional overfilling of the street letter boxes in the central district.

Persons posting circular notices of meetings, etc., where immediate despatch is of importance, would do well to hand them in at the Post Office with intimation to that effect.

The growing habit of using in an address

in at the Post Office with Intimation to that effect.

The growing habit of using in an address the fancy title of a house, instead of merely the plain street and number, is a frequent source of error at the sorting cases, where the work has to be done by a rapid glance, and the title of the house happens also to be the name of a post-town.

A Carrier is not required to leave letters at any house where he may be in danger of a victous dog. The owner must call at the General Delivery, till the dog is tied up or otherwise disposed of.

Many persons telephoning to the Post Office resent the reply that their request must be put in writing. But obvious mischief might result from orders for the disposition of correspondence given by an unrecognized voice.

Unused Postage Stamps not being redeemable by the Department should not be used for the remittance of small sums of money, as Postal Notes have been introduced for that purpose.

as Postal Notes have been introduced for that purpose.

A letter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its direction. On no application, however urgent, can it be delivered back to the writer or to any other person.

The sending of a letter or any communication or document subject to letter postage in an open cover does not in any way diminish its liability to letter rate of postage.

Letters bearing mutilated stamps, or stamps so soiled and defaced as to make it impossible for the sorting clerks to decide whether they have been used before or not will be sent to the Postmaster General for his adjudication.

#### LETTER CARRIER DELIVERIES

In the majority of residential districts there are two deliveries each week day, commencing at 7.45 and 15.30. In the central or business district there are four deliveries each week day, commencing at 8.00, 9.00, 13.30 and 16.45.

#### MAIL COLLECTIONS

On week days the street letter boxes (according to location) are searched from nine times a day in the central districts to twice in the outside, except Sunday.

On Sundays, street letter boxes are searched at 6.00 p.m.

On Public Holldays—New Year's Day, Good Friday, 24th of May, Dominion Day, Labor Day, Thanksgiving Day and Christmas Day—there is a morning delivery only. The outgoing mails will close as usual. Street letter boxes will be collected twice during the day, viz.: 10 and 19.30. The General Delivery will be open from 8 to 11 o'clock.

#### LICENSED STAMP VENDORS

The Post Office Act imposes a fine of \$40,00 (each offence) for the unauthorized sale of Postage Stamps, Post Cards, etc.

## THE ORJECTS OF THE ASSOCIATION

FIRST: To improve the directory business by the interchange of ideas, and by the exchange of competent employees.

SECOND: To protect the public against fraudulent advertising schemes, operated under the name of directories, and to drive the promoters of such out of the business.

THIRD: To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH: For the mutual advancement of the established and prospective interests of all who may become members of the association.

## \$100 REWARD

The Association of American Directory Publishers will pay the above reward for the arrest and conviction of any one soliciting or collecting money on Fraudulent Directories, provided conviction results in imprisonment of not less than 6 months. In case of arrest immediately telegraph W. H. Bates, Sec.-Treas., 202 East 12th "treet. New York.

Subdivisions and their Locations

For 1913

CITY DIRECTORY, 1913.

### Method of Numbering Streets, Avenues and Houses:

Calgary's streets are numbered from Centre Street, east and west, and from Centre Avenue, north and south. Example-The first street west of Centre Street and south of Centre Avenue would be First Street S.W., oftentimes called First Street West. The first street east of Centre Street and north of Centre Avenue would be First Street N.E., and so on.

The Avenues are numbered from Centre Avenue and Centre Street. Example—The first avenue south of Centre Avenue and west of Centre Street would be First Avenue S.W., and so on; and the first avenue north of Centre Avenue and west of Centre Street would be First Avenue N.W., and so on.

Half streets or intervening streets are designated "A" or "One-half."

Houses are numbered under the following system: Each lot has a number. The even numbers are on the north side of the avenue and the odd numbers are on the south side of the avenue. On the streets the even numbers are on the east side and the odd numbers are on the west side. block numbers from 100 as follows: 116 8th Avenue West would be on 8th Avenue, between Centre and First Street West. 217 8th Avenue West would be on 8th Avenue between First and Second Street West. On the streets the numbers run as follows: 211 Centre Street South would be on the west side of Centre Street, between Second and N Third Avenues, and 712 Centre Street Third Avenues, and 712 Center Street
South would be between Seventh and
Eighth Avenue, and so on. Each block
starts numbering from the hundred following the block preceding it.

NOTE .- The arrangement in the following Street and Avenue Directory is in numerical order, following Centre Avenue and Centre Street, which appear first, with Avenues preceding Streets. The arrangement by directions is East, West, North East, North West, South East and South West. Streets and Avenues not numerically named appear last in alphabetical order.

Where the odd and even numbers on an Avenue or Street are separated, the south side (odd numbers) on Avenues numbers) will appear first on Streets.
